**(SUPPLEMENTAL)  
DETAILED ACTION**

In response to applicant's telephone inquiry of December 29, 2004 regarding the last Office action, the following corrective action is taken.

The period for reply of THREE MONTHS set in said Office Action is restarted to begin with the mailing date of this letter.

A corrected copy of the last Office Action is enclosed.

***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 16, 2004 has been entered.

Claims 35-36 and 41-59 are pending in this application.

***Election/Restriction***

Applicant elected the species of Compound No. 2 (page 29, Table 1). The species represents a compound of formula (I) wherein A<sup>1</sup> and R<sup>7</sup>-R<sup>12</sup> are hydrogen and A<sup>2</sup> is 6-chloro-pyrid-3-yl. The elected species was not found in the prior art and the search was expanded (as per the guidelines of MPEP § 803.02) to the compounds of formula (I) wherein X is -CH<sub>2</sub>-CH<sub>2</sub>-

Art Unit: 1624

CH<sub>2</sub>-; A<sup>1</sup> is H, phenyl, alkyl, alkyl substituted with phenyl; and A<sup>2</sup> is optionally substituted phenyl and art was found.

Claim 59 and the subject matter of compounds of formula (I) other than the above indicated subgenus are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to non-elected inventions.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 35 and 41-58 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 35 recites the limitation " an optionally substituted alkyl group, excluding dichloronitromethyl " in lines 5-6. There is insufficient antecedent basis for this limitation in the claim because the substituent list for the 'alkyl group' does not include 'chloro' and 'nitro' and therefore, the above recited group "dichloronitromethyl" can not be excluded (groups that are not included in the claim can not be excluded).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

**Note:** The above references are representative of the searched subgenus. Claim 35 is extremely broad and covers many known compounds, e.g., **1,4,5,6-tetrahydropyrimidine**, which is available in Aldrich Catalog 29,333-4.

***Allowable Subject Matter***

Claim 36 is allowed. The references of record do not teach or fairly suggest the claimed compounds.
